ADVERTISEMENT.

THE Directory of the present year has been compiled with great care and expense, and contains thirty-six pages more than the last. The alterations are numerous, more so perhaps than the public are, or can be, aware of; this confirms the publishers in the opinion that it is expedient and necessary to continue it yearly.

The necessity of giving specific directions to persons who reside in streets where the buildings are not numbered, is obvious to every one who has had occasion to seek a person so situated; and the difficulty is more to be regretted, when it is considered, that for a trifling individual expense numbers might be attached to every building, and the community relieved from a vexatious and troublesome embarrassment to which they are daily subjected. Some of our principal streets are but partially numbered, and those very irregularly. This inconvenience might be easily remedied by the exertions of two or more active individuals in each street. The common apology, that the lots are not all occupied, and therefore the numbers would become irregular and useless, is obviated by the fact, established by experience, that a building which is numbered, whether regularly or irregularly, is, on recurrence to the street, present to the recollection of most people who have viewed it before; and thus the necessity of going from one end of the street to the other in pursuit of a person, is avoided, by being enabled to go direct to the place.

From the encouragement we have received the present year from our advertising friends, we propose to continue the ADVERTISING SHEET, of which due notice will be given before the Directory is published, each year.
